

Hydraulic Breakers

High performance hydraulic breakers

The Belle Group BHB Range handheld Hydraulic Breakers are sturdy and reliable breakers designed for working together with Belle Group Hydraulic Power Packs.

All models have frequency and blow rates to achieve maximum productivity.

The handheld Breakers are available in two different sizes with varying impact energies and commonly used tool sizes. The handheld Breakers are designed for various jobs from light brickwork and asphalt jobs to heavy duty jobs in reinforced concrete. All Belle Group BHB Range handheld breakers are delivered with $\frac{1}{2}$ " tail-hoses with $\frac{1}{2}$ " Flat-Face quick-release couplings for easy connection to the Belle Group Hydraulic Power Packs.

ADVANTAGES

- **BHB23** Hydraulic Breaker 52lb .
All purpose medium weight tool for a wide range of applications.
Vibration damped handles without reduction of blow energy
- **BHB30** Hydraulic Breaker 70lb.
High performance heavy duty tools, suitable for tough sites. Can be used with
5 gal. or 8 gal powerpack by changing restrictor which is supplied.

Ref / Model	Max Pressure (lb/in ²)	Flow (gal/min)	Blows/ min	Energy (joules - lb/ft)	Steel Size (inch)	Weight (lb)
BHB23USAS	2320	5	1600	65 - 48	1 $\frac{1}{4}$ x 6	52
BHB30USAS*	2320	5	1150	110 - 82	1 $\frac{1}{4}$ x 6	70
BHB30USAS*	2320	8	1850	110 - 82	1 $\frac{1}{4}$ x 6	70

*Same model can be adapted for 5 or 8 gall.
